Nebraska County Court Districts

Introduction

The Nebraska Juvenile Justice System 2015 Statistical Annual Report meets the requirements of Nebraska Revised Statute § 24-1007 (2014). This report is compiled by the Administrative Office of the Courts (AOC) and Probation (AOP). The report contains statistics on Juvenile Justice (status offense and juvenile delinquency) cases and on juveniles prosecuted in the adult court system. A status offense is an act that is punishable because of the juvenile status of the person, but that is not punishable if committed by an adult¹. Juvenile delinquency cases involve a violation of a law applicable regardless of age. This report is to assist in the evaluation of the juvenile justice system. The data presented show caseload statistics by case type, geography and demographics.

The data in this report was extracted from the Supreme Court's Judicial User System to Improve Court Efficiency (JUSTICE), a case-based data storage system comprised of clerk entries of information from relevant court documents. Each table reports statistics on cases for youth ages 17 and under at the time of the offense. The Part (d) Juvenile Probation Activity - Youth tables are provided from the Office of Probation's case management system, Nebraska Probation Application for Community Safety (NPACS), and report activity for juveniles receiving probation services in the year.

The report contains a statewide section and 12 judicial district sections. Each district section has district summary tables followed by county data for that judicial district. If there is no data for a county, that county is not included in the table. All geographic areas include demographic statistics by age, gender and race/ethnicity. If not expressly written on trial court forms, gender and/or race/ethnicity may be unknown to court personnel responsible for JUSTICE data entry and will be included as "Unknown" in this report.

In order to report the age demographic, cases were combined into age groups based on the age of the juvenile at the time the offense was committed. Age groups used in this report are: 10 & Under; 11-13; 14-15; 16; and 17 and are based on Nebraska Revised Statute 43-246.01 regarding critical ages:

- Ages 13 and below must be filed and stay in juvenile court.
- Cases for juveniles who were 14 or 15 at the time of the offense:
 - Class I – III felonies can be filed in either adult or juvenile court
 - Class IIIA & IV felonies at the time of the offense must originate in juvenile court, but can be transferred to adult court
 - All misdemeanors must be filed in and heard in juvenile court
- Cases involving juveniles who were 16 or 17 at the time of the offense:
 - Class I- III felonies can be filed in either adult or juvenile court
 - Class IIIA & IV felonies must be filed in juvenile court, but can be transferred to adult court.
 - Misdemeanors - 16 year olds must start in juvenile court, but can be transferred to adult court.
 - Misdemeanors - 17 year olds can be filed either in juvenile or adult court until January 1, 2017.
 - Starting in 2017 all misdemeanors must be filed in juvenile court, but for youth 16 or 17 years of age the prosecutor can move to transfer cases to adult court.

The JUSTICE case management system contains case-based, not person-based data. It tracks case progress and activity; it does not have any built-in components to manage the identity of parties across cases. Therefore, rates of recidivism cannot be calculated using the JUSTICE programming. Providing rates of recidivism with any degree of accuracy requires detailed comparison and manual analysis of records, and is beyond the resources of the judicial branch at this time.

Statewide Results

Part (a) Juvenile Petitions and Adjudications

Nebraska Revised Statute 24-1007 (a) Juveniles prosecuted in juvenile court under subdivision (1), (2), (3), or (4) of section 43-247, including the total number of filings and adjudications.

The Juvenile Petitions and Adjudications tables report the number of new juvenile cases and corresponding percent of adjudications by case type and demographic for cases filed in 2015. The data consists of both county court and separate juvenile court cases. Cases with multiple charges, pleas or findings are counted once per case. Supplemental petitions are not included in this data set. Cases filed in November or December of 2015 may not have reached the adjudication stage of proceedings.

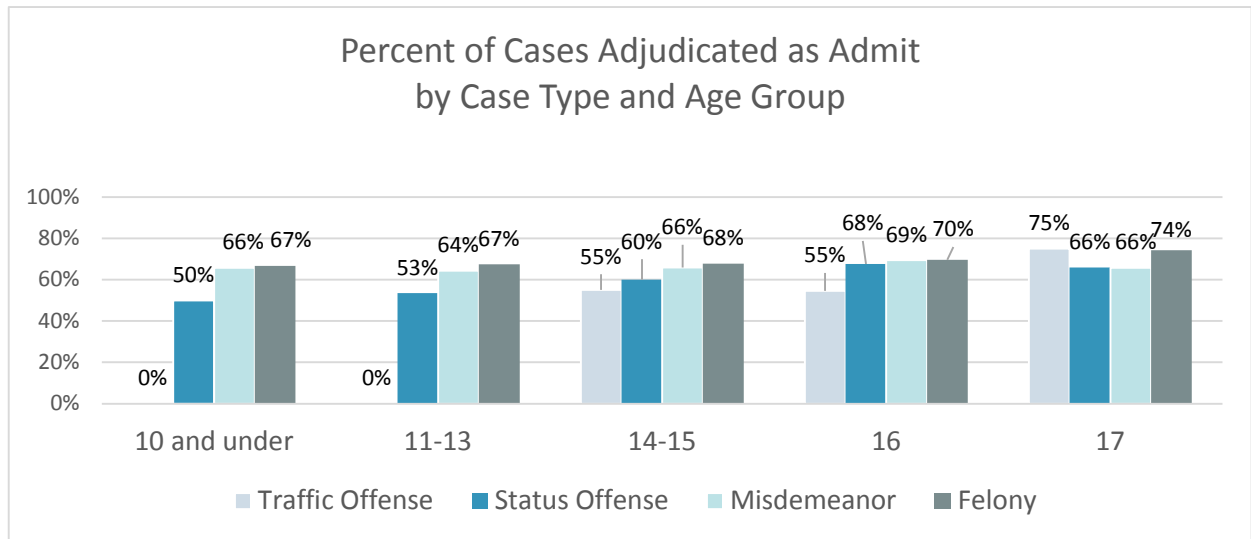

*Out of
5,337 Juvenile cases
statewide,
3,524 (66%) were
adjudicated as
"Admit" in 2015.*

Part (b) Juveniles Prosecuted in Adult Criminal Court - Case Type

Nebraska Revised Statute 24-1007 (b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation.

Juveniles Prosecuted in Adult Criminal Court tables consist of criminal and traffic cases in county court and criminal cases in district court that reached the point of sentencing in 2015. Cases with multiple charges are counted once per case and reported as the most severe offense. Cases for juveniles ages 13 and below must be filed and stay in juvenile court; however, judges have the authority to allow these cases in criminal court. Therefore, only juveniles ages 14 through 17 at the time of the offense appear in adult criminal court data, with rare exceptions.

Overall, 13% of juveniles prosecuted in adult criminal court were prosecuted for traffic cases, 53% for misdemeanor cases, and 33% for felony cases.

Part (c) Motions to Transfer Cases and Cases Transferred

Nebraska Revised Statute 24-1007 (c) The number of motions to transfer and the number of cases transferred to adult court from juvenile court and from adult criminal court to juvenile court.

The data for Motions to Transfer Cases and Cases Transferred consists of county court and district court adult criminal cases and county court and separate juvenile court juvenile cases within the same county. Motions to transfer cases and cases transferred that were entered in 2015 were included in the file. Cases may have been filed previously and transferred in 2015. There can be multiple motions to transfer a case and all are reported; transfers occur once per case.

Part (d) Juvenile Probation Activity - Cases

Nebraska Revised Statute 24-1007 (d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation.

Juvenile Probation Activity - Cases tables consist of juvenile probation cases in county court and separate juvenile court that had the following activities during the year: placed on probation, out-of-home placement, motions to revoke, probation revoked, or satisfactory release. Probation cases may have multiple motions to revoke probation and multiple probation revocations. Cases may have been ordered to probation in previous years. All probation types are included.

*Percent of total cases is calculated using the valid percent within demographic (cases with unknown gender or unknown race/ethnicity are not included).

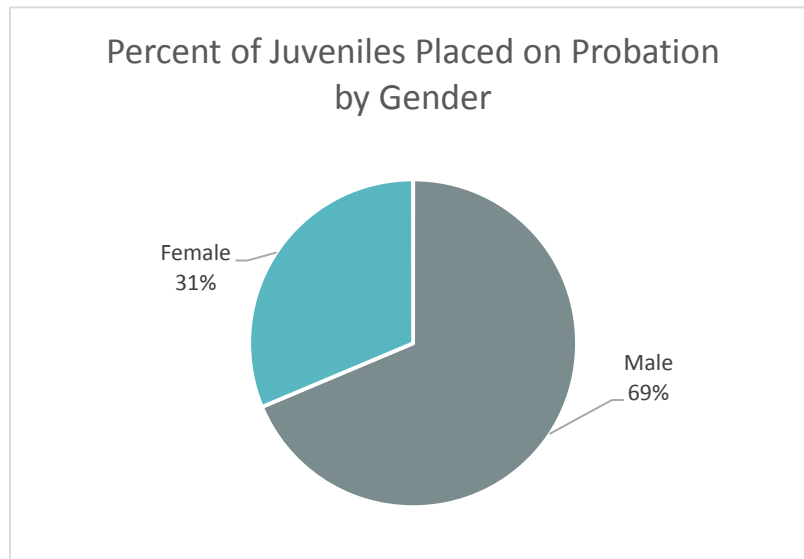

In 2015, there were 5,067 cases with a juvenile placed on probation. Four out of ten (38%) cases were for juveniles age 14-15, 69% of cases were for males, and 58% of cases were for whites. Of the cases placed on probation, 18% were in out-of-home placements. Of the out-of-home placements, 41% were for children ages 14-15, 71% of cases were for males, and 43% of cases were for whites. Of the 4,649 motions to revoke probation, 46% of cases were for 14-15 year olds, 76% of cases were for males, and 46% of cases were for white juveniles. Probation was revoked for 2,938 cases, of which 47% were ages 14-15, 79% of cases were for males, and 40% of cases were for white juveniles. There were 2,748 cases with a satisfactory release from probation. Of these, 39% were for juveniles ages 14-15, 66% were for males and 59% of cases were for whites.

During the year, 2,748 cases had a satisfactory release, while 2,938 cases had probation revoked.

Part (d) Juvenile Probation Activity - Youth

Nebraska Revised Statute 24-1007 (d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation.

The Juvenile Probation Activity - Youth data is provided from the Office of Probation's case management system, Nebraska Probation Application for Community Safety (NPACS). The table reports the number and percent of youth with various activity during the year. Youth are counted once in each category, regardless of the number of out-of-home placements, motions to revoke, or cases they may have in the court system. Age groups report age at the time of arrest, with the exception of the average length of probation, which reports age at the time of exit from probation.

*Probation is terminated at 19 years of age. The age group for 18 year olds average length of probation includes 18 and 19 year olds.

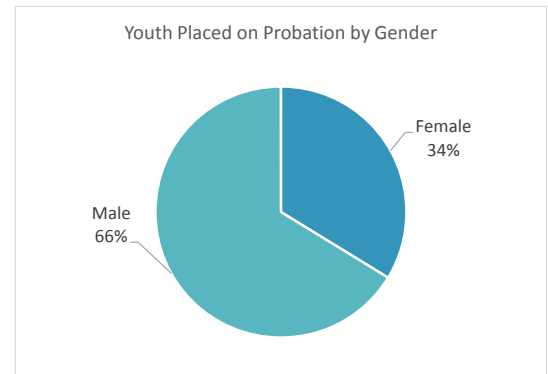

2015 saw 3,195 youth placed on probation. Over a third (36%) of youth were ages 14-15, two thirds (66%) were male and over half (56%) were white. Of the 1,796 youth who had an out-of-home placement within the year, 43% were 14-15 years, 68% were male, and 50% were white. 126 youth had their probation revoked in the year. Of these youth, 44% were ages 14-15, 71% were male, and 46% were white. A total of 2,283 youth had a satisfactory release from probation. Over a third (38%) were 14-15 years, 64% were male and 58% were white. Overall, the average length of probation in the year was 11 months.

The 3,078 youth that were discharged in 2015 averaged 11 months on probation.

Youth Level of Service/Case Management Inventory (YLS/CMI) is an assessment tool used to determine the level of risk and appropriate placement for youth on probation. The following table shows the classification results of youth upon entry and exit from probation.

Classification based on Youth Level of Service (YLS)/ Case Management Inventory (CMI) Level				
Risk Category	Initial Classification		Final Classification	
	#	%	#	%
Juvenile Community-Based Intervention (high risk)	1,158	36%	1,031	33%

Other*	118	4%	107	3%
Grand Total	3,195	100%	3,078	100%

*No YLS/CMI assessment completed prior to termination of probation due to a brief probation term or successful completion of pre-adjudicated services.

As a part of the Interstate Compact on the Placement of Children (ICPC), Nebraska monitors youth from out of state: 24 placed on probation, 6 out-of-home placement, 1 motion to revoke, 25 discharged, 20 successful release, 25 discharged with YLS/CMI with an average length of probation of 13 months.

Part (e) Juveniles With Access to Counsel

Nebraska Revised Statute 24-1007 (e) juveniles with and without access to counsel in juvenile and adult court, both appointed and retained.

The Juveniles with Access to Counsel table displays the percent of juveniles represented by an attorney in criminal cases from county court and district court and juvenile cases from county court and separate juvenile court. Data includes new cases filed and cases transferred from one county to another during calendar year 2015. Cases filed in 2015 may not have reached the sentencing/adjudication stage of proceedings.

One third (33%) of juvenile cases in criminal court had access to counsel, while over six out of ten (62%) cases in juvenile court had access to counsel.

Cases for juveniles ages 13 and below must be filed and stay in juvenile court; however, judges do have the authority to allow these cases to be filed in criminal court. Cases for juveniles below age 13 heard in criminal court are typically transferred to juvenile court, dismissed, or the juvenile is fined.

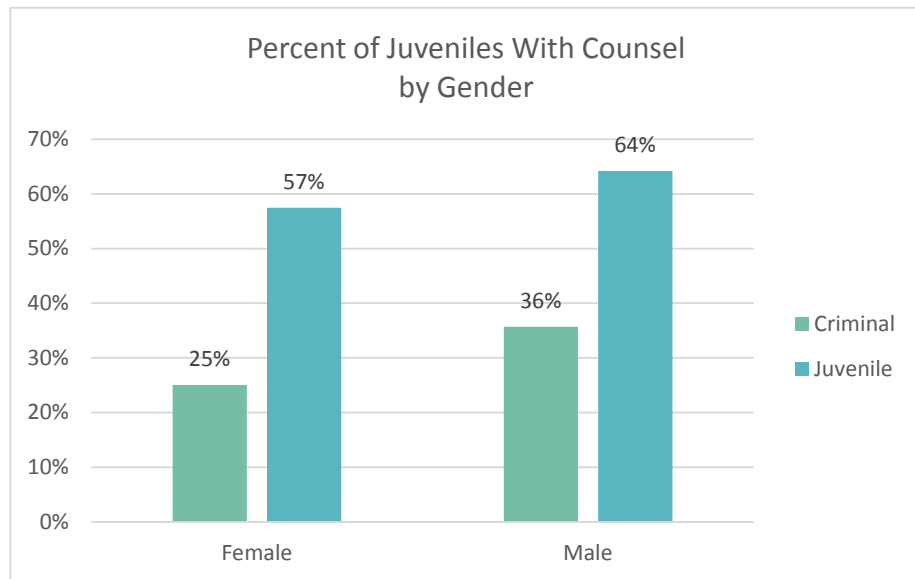

Overall, of the 1,961 juvenile cases filed in criminal court, one third (33%) had access to counsel. Of the 6,602 juvenile court cases, over six out of ten (62%) cases had access to counsel.

Demographic groups most likely to have counsel in criminal court were age 10 & under (75%), followed by 17 year olds (38%), males (36%), and American Indians (57%). In juvenile court, the largest percent with access to counsel was 17 year olds (64%), males (64%), other race (91%) and blacks (87%).

Part (f) Rates of Recidivism

Nebraska Revised Statute 24-1007 (f) Rates of recidivism.

Rates of recidivism are not included in this report. The JUSTICE system was developed as a case management system. As such, it tracks case progress and activity; it does not have any built-in components to manage the identity of parties across cases. Statistics available from the JUSTICE case management system are all case-based, not person-based. Therefore, recidivism rates cannot be obtained in the JUSTICE system.

Part (a) Adjudication of Juvenile Petitions

Nebraska Revised Statute 24-1007 (a) Juveniles prosecuted in juvenile court under subdivision (1), (2), (3), or (4) of section 43-247, including the total number of filings and adjudications.

The Juvenile Petitions and Adjudications tables report the number of new juvenile cases and corresponding percent of adjudications by case type and demographic for cases filed in 2015. The data consists of both county court and separate juvenile court cases. Cases with multiple charges, pleas or findings are counted once per case. Supplemental petitions are not included in this data set. Cases filed in November or December of 2015 may not have reached the adjudication stage of proceedings.

Part (b) Juveniles Prosecuted in Adult Criminal Court - Case Type

Nebraska Revised Statute 24-1007 (b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation.

Juveniles Prosecuted in Adult Criminal Court tables consist of criminal and traffic cases in county court and criminal cases in district court that reached the point of sentencing in 2015. Cases with multiple charges are counted once per case and reported as the most severe offense. Cases for juveniles ages 13 and below must be filed and stay in juvenile court; however, judges have the authority to allow these cases in criminal court. Therefore, only juveniles ages 14 through 17 at the time of the offense appear in adult criminal court data, with rare exceptions.

Part (b) Juveniles Prosecuted in Adult Criminal Court - Sentence

Nebraska Revised Statute 24-1007 (b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation.

Juveniles Prosecuted in Adult Criminal Court tables include criminal and traffic cases in county court and criminal cases in district court that reached the point of sentencing in 2015. If multiple sentencing types occur within a case (ex. probation/jail), all sentencing types are included.

Part (c) Motions to Transfer Courts and Transfers

Nebraska Revised Statute 24-1007 (c) The number of motions to transfer and the number of cases transferred to adult court from juvenile court and from adult criminal court to juvenile court.

The data for Motions to Transfer Cases and Cases Transferred consists of county court and district court adult criminal cases and county court and separate juvenile court juvenile cases within the same county. Motions to transfer cases and cases transferred that were entered in 2015 were included in the file. Cases may have been filed previously and transferred in 2015. There can be multiple motions to transfer a case and all are reported; transfers occur once per case.

Part (d) Juvenile Probation Activity - Youth

Nebraska Revised Statute 24-1007 (d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation.

The Juvenile Probation Activity - Youth data is provided from the Office of Probation's case management system, Nebraska Probation Application for Community Safety (NPACS). The table reports the number and percent of youth with various activity during the year. Youth are counted once in each category, regardless of the number of out-of-home placements, motions to revoke, or cases they may have in the court system. Age groups report age at the time of arrest, with the exception of the average length of probation, which reports age at the time of exit from probation.

Youth Level of Service/Case Management Inventory (YLS/CMI) is an assessment tool used to determine the level of risk and appropriate placement for youth on probation. The following table shows the classification results of youth upon entry and exit from probation.

Classification based on Youth Level of Service/ Case Management Inventory Level					
District	Risk Category	Initial Classification		Final Classification	
		#	%	#	%
D1	Juvenile Community-Based Intervention (high risk)	40	40%	44	34%
	Juvenile Community-Based Resource (low risk)	57	57%	81	63%
	Other*	3	3%	3	2%
Total Youth		100	100%	128	100%

*No YLS/CMI assessment completed prior to termination of probation due to a brief probation term or successful completion of pre-adjudicated services.

As a part of the Interstate Compact on the Placement of Children (ICPC), Nebraska monitors youth from out of state. These are notated in county tables as “out of state.”

Part (e) Juveniles With Access to Counsel

Nebraska Revised Statute 24-1007 (e) juveniles with and without access to counsel in juvenile and adult court, both appointed and retained.

The Juveniles with Access to Counsel table displays the percent of juveniles represented by an attorney in criminal cases from county court and district court and juvenile cases from county court and separate juvenile court. Data includes new cases filed and cases transferred from one county to another during calendar year 2015. Cases filed in 2015 may not have reached the sentencing/adjudication stage of proceedings.

Part (a) Adjudication of Juvenile Petitions

Nebraska Revised Statute 24-1007 (a) Juveniles prosecuted in juvenile court under subdivision (1), (2), (3), or (4) of section 43-247, including the total number of filings and adjudications.

The Juvenile Petitions and Adjudications tables report the number of new juvenile cases and corresponding percent of adjudications by case type and demographic for cases filed in 2015. The data consists of both county court and separate juvenile court cases. Cases with multiple charges, pleas or findings are counted once per case. Supplemental petitions are not included in this data set. Cases filed in November or December of 2015 may not have reached the adjudication stage of proceedings.

Part (b) Juveniles Prosecuted in Adult Criminal Court - Case Type

Nebraska Revised Statute 24-1007 (b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation.

Juveniles Prosecuted in Adult Criminal Court tables consist of criminal and traffic cases in county court and criminal cases in district court that reached the point of sentencing in 2015. Cases with multiple charges are counted once per case and reported as the most severe offense. Cases for juveniles ages 13 and below must be filed and stay in juvenile court; however, judges have the authority to allow these cases in criminal court. Therefore, only juveniles ages 14 through 17 at the time of the offense appear in adult criminal court data, with rare exceptions.

Part (c) Motions to Transfer Courts and Transfers

Nebraska Revised Statute 24-1007 (c) The number of motions to transfer and the number of cases transferred to adult court from juvenile court and from adult criminal court to juvenile court.

The data for Motions to Transfer Cases and Cases Transferred consists of county court and district court adult criminal cases and county court and separate juvenile court juvenile cases within the same county. Motions to transfer cases and cases transferred that were entered in 2015 were included in the file. Cases may have been filed previously and transferred in 2015. There can be multiple motions to transfer a case and all are reported; transfers occur once per case.

Part (d) Probation - Cases

Nebraska Revised Statute 24-1007 (d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation.

Juvenile Probation Activity - Cases tables consist of juvenile probation cases in county court and separate juvenile court that had the following activities during the year: placed on probation, out-of-home placement, motions to revoke, probation revoked, or satisfactory release. Probation cases may have multiple motions to revoke probation and multiple probation revocations. Cases may have been ordered to probation in previous years. All probation types are included.

Part (d) Probation - Youth

Nebraska Revised Statute 24-1007 (d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation.

The Juvenile Probation Activity - Youth data is provided from the Office of Probation's case management system, Nebraska Probation Application for Community Safety (NPACS). The table reports the number and percent of youth with various activity during the year. Youth are counted once in each category, regardless of the number of out-of-home placements, motions to revoke, or cases they may have in the court system. Age groups report age at the time of arrest, with the exception of the average length of probation, which reports age at the time of exit from probation.

Youth Level of Service/Case Management Inventory (YLS/CMI) is an assessment tool used to determine the level of risk and appropriate placement for youth on probation. The following table shows the classification results of youth upon entry and exit from probation.

Classification based on Youth Level of Service/ Case Management Inventory Level					
District	Risk Category	Initial Classification		Final Classification	
		#	%	#	%
D2	Juvenile Community-Based Intervention (high risk)	86	34%	84	34%

Total Youth		255	100%	248	100%

*No YLS/CMI assessment completed prior to termination of probation due to a brief probation term or successful completion of pre-adjudicated services.

As a part of the Interstate Compact on the Placement of Children (ICPC), Nebraska monitors youth from out of state. These are notated in county tables as “out of state.”

Part (e) Juveniles With Access to Counsel

Nebraska Revised Statute 24-1007 (e) juveniles with and without access to counsel in juvenile and adult court, both appointed and retained.

The Juveniles with Access to Counsel table displays the percent of juveniles represented by an attorney in criminal cases from county court and district court and juvenile cases from county court and separate juvenile court. Data includes new cases filed and cases transferred from one county to another during calendar year 2015. Cases filed in 2015 may not have reached the sentencing/adjudication stage of proceedings.

Nebraska Revised Statute 24-1007 (a) Juveniles prosecuted in juvenile court under subdivision (1), (2), (3), or (4) of section 43-247, including the total number of filings and adjudications.

The Juvenile Petitions and Adjudications tables report the number of new juvenile cases and corresponding percent of adjudications by case type and demographic for cases filed in 2015. The data consists of both county court and separate juvenile court cases. Cases with multiple charges, pleas or findings are counted once per case. Supplemental petitions are not included in this data set. Cases filed in November or December of 2015 may not have reached the adjudication stage of proceedings.

Part (b) Juveniles Prosecuted in Adult Criminal Court Case Type

Nebraska Revised Statute 24-1007 (b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation.

Juveniles Prosecuted in Adult Criminal Court tables consist of criminal and traffic cases in county court and criminal cases in district court that reached the point of sentencing in 2015. Cases with multiple charges are counted once per case and reported as the most severe offense. Cases for juveniles ages 13 and below must be filed and stay in juvenile court; however, judges have the authority to allow these cases in criminal court. Therefore, only juveniles ages 14 through 17 at the time of the offense appear in adult criminal court data, with rare exceptions.

Part (b) Juveniles Prosecuted in Adult Criminal Court - Sentence

Nebraska Revised Statute 24-1007 (b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation.

Juveniles Prosecuted in Adult Criminal Court tables include criminal and traffic cases in county court and criminal cases in district court that reached the point of sentencing in 2015. If multiple sentencing types occur within a case (ex. probation/jail), all sentencing types are included.

Part (c) Motions to Transfer Courts and Transfers

Nebraska Revised Statute 24-1007 (c) The number of motions to transfer and the number of cases transferred to adult court from juvenile court and from adult criminal court to juvenile court.

The data for Motions to Transfer Cases and Cases Transferred consists of county court and district court adult criminal cases and county court and separate juvenile court juvenile cases within the same county. Motions to transfer cases and cases transferred that were entered in 2015 were included in the file. Cases may have been filed previously and transferred in 2015. There can be multiple motions to transfer a case and all are reported; transfers occur once per case.

Part (d) Probation - Youth

Nebraska Revised Statute 24-1007 (d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation.

The Juvenile Probation Activity - Juveniles data is provided from the Office of Probation's case management system, Nebraska Probation Application for Community Safety (NPACS). The table reports the number and percent of youth with various activity during the year. Youth are counted once in each category, regardless of the number of out-of-home placements, motions to revoke, or cases they may have in the court system. Age groups report age at the time of arrest, with the exception of the average length of probation, which reports age at the time of exit from probation.

Part (e) Juveniles With Access to Counsel

Nebraska Revised Statute 24-1007 (e) juveniles with and without access to counsel in juvenile and adult court, both appointed and retained.

The Juveniles with Access to Counsel table displays the percent of juveniles represented by an attorney in criminal cases from county court and district court and juvenile cases from county court and separate juvenile court. Data includes new cases filed and cases transferred from one county to another during calendar year 2015. Cases filed in 2015 may not have reached the sentencing/adjudication stage of proceedings.

Nebraska Revised Statute 24-1007 (a) Juveniles prosecuted in juvenile court under subdivision (1), (2), (3), or (4) of section 43-247, including the total number of filings and adjudications.

The Juvenile Petitions and Adjudications tables report the number of new juvenile cases and corresponding percent of adjudications by case type and demographic for cases filed in 2015. The data consists of both county court and separate juvenile court cases. Cases with multiple charges, pleas or findings are counted once per case. Supplemental petitions are not included in this data set. Cases filed in November or December of 2015 may not have reached the adjudication stage of proceedings.

Part (b) Juveniles Prosecuted in Adult Criminal Court - Case Type

Nebraska Revised Statute 24-1007 (b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation.

Juveniles Prosecuted in Adult Criminal Court tables consist of criminal and traffic cases in county court and criminal cases in district court that reached the point of sentencing in 2015. Cases with multiple charges are counted once per case and reported as the most severe offense. Cases for juveniles ages 13 and below must be filed and stay in juvenile court; however, judges have the authority to allow these cases in criminal court. Therefore, only juveniles ages 14 through 17 at the time of the offense appear in adult criminal court data, with rare exceptions.

Part (d) Probation - Youth

Nebraska Revised Statute 24-1007 (d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation.

The Juvenile Probation Activity - Youth data is provided from the Office of Probation's case management system, Nebraska Probation Application for Community Safety (NPACS). The table reports the number and percent of youth with various activity during the year. Youth are counted once in each category, regardless of the number of out-of-home placements, motions to revoke, or cases they may have in the court system. Age groups report age at the time of arrest, with the exception of the average length of probation, which reports age at the time of exit from probation.

Part (e) Juveniles With Access to Counsel

Nebraska Revised Statute 24-1007 (e) juveniles with and without access to counsel in juvenile and adult court, both appointed and retained.

The Juveniles with Access to Counsel table displays the percent of juveniles represented by an attorney in criminal cases from county court and district court and juvenile cases from county court and separate juvenile court. Data includes new cases filed and cases transferred from one county to another during calendar year 2015. Cases filed in 2015 may not have reached the sentencing/adjudication stage of proceedings.

Part (a) Adjudication of Juvenile Petitions

Nebraska Revised Statute 24-1007 (a) Juveniles prosecuted in juvenile court under subdivision (1), (2), (3), or (4) of section 43-247, including the total number of filings and adjudications.

The Juvenile Petitions and Adjudications tables report the number of new juvenile cases and corresponding percent of adjudications by case type and demographic for cases filed in 2015. The data consists of both county court and separate juvenile court cases. Cases with multiple charges, pleas or findings are counted once per case. Supplemental petitions are not included in this data set. Cases filed in November or December of 2015 may not have reached the adjudication stage of proceedings.

Part (b) Juveniles Prosecuted in Adult Criminal Court - Case Type

Nebraska Revised Statute 24-1007 (b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation.

Juveniles Prosecuted in Adult Criminal Court tables consist of criminal and traffic cases in county court and criminal cases in district court that reached the point of sentencing in 2015. Cases with multiple charges are counted once per case and reported as the most severe offense. Cases for juveniles ages 13 and below must be filed and stay in juvenile court; however, judges have the authority to allow these cases in criminal court. Therefore, only juveniles ages 14 through 17 at the time of the offense appear in adult criminal court data, with rare exceptions.

Part (b) Juveniles Prosecuted in Adult Criminal Court - Sentence

Nebraska Revised Statute 24-1007 (b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation.

Juveniles Prosecuted in Adult Criminal Court tables include criminal and traffic cases in county court and criminal cases in district court that reached the point of sentencing in 2015. If multiple sentencing types occur within a case (ex. probation/jail), all sentencing types are included.

Part (c) Motions to Transfer Courts and Transfers

Nebraska Revised Statute 24-1007 (c) The number of motions to transfer and the number of cases transferred to adult court from juvenile court and from adult criminal court to juvenile court.

The data for Motions to Transfer Cases and Cases Transferred consists of county court and district court adult criminal cases and county court and separate juvenile court juvenile cases within the same county. Motions to transfer cases and cases transferred that were entered in 2015 were included in the file. Cases may have been filed previously and transferred in 2015. There can be multiple motions to transfer a case and all are reported; transfers occur once per case.

Part (d) Probation - Cases

Nebraska Revised Statute 24-1007 (d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation.

Juvenile Probation Activity - Cases tables consist of juvenile probation cases in county court and separate juvenile court that had the following activities during the year: placed on probation, out-of-home placement, motions to revoke, probation revoked, or satisfactory release. Probation cases may have multiple motions to revoke probation and multiple probation revocations. Cases may have been ordered to probation in previous years. All probation types are included.

Part (d) Probation - Youth

Nebraska Revised Statute 24-1007 (d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation.

The Juvenile Probation Activity - Youth data is provided from the Office of Probation's case management system, Nebraska Probation Application for Community Safety (NPACS). The table reports the number and percent of youth with various activity during the year. Youth are counted once in each category, regardless of the number of out-of-home placements, motions to revoke, or cases they may have in the court system. Age groups report age at the time of arrest, with the exception of the average length of probation, which reports age at the time of exit from probation.

Youth Level of Service/Case Management Inventory (YLS/CMI) is an assessment tool used to determine the level of risk and appropriate placement for youth on probation. The following table shows the classification results of youth upon entry and exit from probation.

Classification based on Youth Level of Service/ Case Management Inventory Level					
District	Risk Category	Initial Classification		Final Classification	
		#	%	#	%
D5	Juvenile Community-Based Intervention (high risk)	88	39%	73	36%
	Juvenile Community-Based Resource (low risk)	115	51%	106	52%
	Other*	21	9%	23	11%
Total Youth		224	100%	202	100%

*No YLS/CMI assessment completed prior to termination of probation due to a brief probation term or successful completion of pre-adjudicated services.

As a part of the Interstate Compact on the Placement of Children (ICPC), Nebraska monitors youth from out of state. These are notated in county tables as “out of state.”

Part (e) Juveniles With Access to Counsel

Nebraska Revised Statute 24-1007 (e) juveniles with and without access to counsel in juvenile and adult court, both appointed and retained.

The Juveniles with Access to Counsel table displays the percent of juveniles represented by an attorney in criminal cases from county court and district court and juvenile cases from county court and separate juvenile court. Data includes new cases filed and cases transferred from one county to another during calendar year 2015. Cases filed in 2015 may not have reached the sentencing/adjudication stage of proceedings.

Part (a) Adjudication of Juvenile Petitions

Nebraska Revised Statute 24-1007 (a) Juveniles prosecuted in juvenile court under subdivision (1), (2), (3), or (4) of section 43-247, including the total number of filings and adjudications.

The Juvenile Petitions and Adjudications tables report the number of new juvenile cases and corresponding percent of adjudications by case type and demographic for cases filed in 2015. The data consists of both county court and separate juvenile court cases. Cases with multiple charges, pleas or findings are counted once per case. Supplemental petitions are not included in this data set. Cases filed in November or December of 2015 may not have reached the adjudication stage of proceedings.

Part (b) Juveniles Prosecuted in Adult Criminal Court - Case Type

Nebraska Revised Statute 24-1007 (b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation.

Juveniles Prosecuted in Adult Criminal Court tables consist of criminal and traffic cases in county court and criminal cases in district court that reached the point of sentencing in 2015. Cases with multiple charges are counted once per case and reported as the most severe offense. Cases for juveniles ages 13 and below must be filed and stay in juvenile court; however, judges have the authority to allow these cases in criminal court. Therefore, only juveniles ages 14 through 17 at the time of the offense appear in adult criminal court data, with rare exceptions.

Part (c) Motions to Transfer Courts and Transfers

Nebraska Revised Statute 24-1007 (c) The number of motions to transfer and the number of cases transferred to adult court from juvenile court and from adult criminal court to juvenile court.

The data for Motions to Transfer Cases and Cases Transferred consists of county court and district court adult criminal cases and county court and separate juvenile court juvenile cases within the same county. Motions to transfer cases and cases transferred that were entered in 2015 were included in the file. Cases may have been filed previously and transferred in 2015. There can be multiple motions to transfer a case and all are reported; transfers occur once per case.

Part (d) Probation - Youth

Nebraska Revised Statute 24-1007 (d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation.

The Juvenile Probation Activity - Youth data is provided from the Office of Probation's case management system, Nebraska Probation Application for Community Safety (NPACS). The table reports the number and percent of youth with various activity during the year. Youth are counted once in each category, regardless of the number of out-of-home placements, motions to revoke, or cases they may have in the court system. Age groups report age at the time of arrest, with the exception of the average length of probation, which reports age at the time of exit from probation.

Youth Level of Service/Case Management Inventory (YLS/CMI) is an assessment tool used to determine the level of risk and appropriate placement for youth on probation. The following table shows the classification results of youth upon entry and exit from probation.

District	Risk Category	Initial Classification		Final Classification	
		#	%	#	%

Total Youth		209	100%	178	100%

*No YLS/CMI assessment completed prior to termination of probation due to a brief probation term or successful completion of pre-adjudicated services.

As a part of the Interstate Compact on the Placement of Children (ICPC), Nebraska monitors youth from out of state. These are notated in county tables as “out of state.”

Part (e) Juveniles With Access to Counsel

Nebraska Revised Statute 24-1007 (e) juveniles with and without access to counsel in juvenile and adult court, both appointed and retained.

The Juveniles with Access to Counsel table displays the percent of juveniles represented by an attorney in criminal cases from county court and district court and juvenile cases from county court and separate juvenile court. Data includes new cases filed and cases transferred from one county to another during calendar year 2015. Cases filed in 2015 may not have reached the sentencing/adjudication stage of proceedings.

Part (a) Adjudication of Juvenile Petitions

Nebraska Revised Statute 24-1007 (a) Juveniles prosecuted in juvenile court under subdivision (1), (2), (3), or (4) of section 43-247, including the total number of filings and adjudications.

The Juvenile Petitions and Adjudications tables report the number of new juvenile cases and corresponding percent of adjudications by case type and demographic for cases filed in 2015. The data consists of both county court and separate juvenile court cases. Cases with multiple charges, pleas or findings are counted once per case. Supplemental petitions are not included in this data set. Cases filed in November or December of 2015 may not have reached the adjudication stage of proceedings.

Part (b) Juveniles Prosecuted in Adult Criminal Court - Case Type

Nebraska Revised Statute 24-1007 (b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation.

Juveniles Prosecuted in Adult Criminal Court tables consist of criminal and traffic cases in county court and criminal cases in district court that reached the point of sentencing in 2015. Cases with multiple charges are counted once per case and reported as the most severe offense. Cases for juveniles ages 13 and below must be filed and stay in juvenile court; however, judges have the authority to allow these cases in criminal court. Therefore, only juveniles ages 14 through 17 at the time of the offense appear in adult criminal court data, with rare exceptions.

Part (b) Juveniles Prosecuted in Adult Criminal Court - Sentence

Nebraska Revised Statute 24-1007 (b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation.

Juveniles Prosecuted in Adult Criminal Court tables include criminal and traffic cases in county court and criminal cases in district court that reached the point of sentencing in 2015. If multiple sentencing types occur within a case (ex. probation/jail), all sentencing types are included.

Part (c) Motions to Transfer Courts and Transfers

Nebraska Revised Statute 24-1007 (c) The number of motions to transfer and the number of cases transferred to adult court from juvenile court and from adult criminal court to juvenile court.

The data for Motions to Transfer Cases and Cases Transferred consists of county court and district court adult criminal cases and county court and separate juvenile court juvenile cases within the same county. Motions to transfer cases and cases transferred that were entered in 2015 were included in the file. Cases may have been filed previously and transferred in 2015. There can be multiple motions to transfer a case and all are reported; transfers occur once per case.

Part (d) Probation - Youth

Nebraska Revised Statute 24-1007 (d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation.

The Juvenile Probation Activity - Youth data is provided from the Office of Probation's case management system, Nebraska Probation Application for Community Safety (NPACS). The table reports the number and percent of youth with various activity during the year. Youth are counted once in each category, regardless of the number of out-of-home placements, motions to revoke, or cases they may have in the court system. Age groups report age at the time of arrest, with the exception of the average length of probation, which reports age at the time of exit from probation.

Youth Level of Service/Case Management Inventory (YLS/CMI) is an assessment tool used to determine the level of risk and appropriate placement for youth on probation. The following table shows the classification results of youth upon entry and exit from probation.

Classification based on Youth Level of Service/ Case Management Inventory Level					
District	Risk Category	Initial Classification		Final Classification	
		#	%	#	%
D7	Juvenile Community-Based Intervention (high risk)	59	40%	46	40%
	Juvenile Community-Based Resource (low risk)	85	58%	87	58%

Total Youth		146	100%	133	100%

*No YLS/CMI assessment completed prior to termination of probation due to a brief probation term or successful completion of pre-adjudicated services.

As a part of the Interstate Compact on the Placement of Children (ICPC), Nebraska monitors youth from out of state. These are notated in county tables as “out of state.”

Part (e) Juveniles With Access to Counsel

Nebraska Revised Statute 24-1007 (e) juveniles with and without access to counsel in juvenile and adult court, both appointed and retained.

The Juveniles with Access to Counsel table displays the percent of juveniles represented by an attorney in criminal cases from county court and district court and juvenile cases from county court and separate juvenile court. Data includes new cases filed and cases transferred from one county to another during calendar year 2015. Cases filed in 2015 may not have reached the sentencing/adjudication stage of proceedings.

Part (a) Adjudication of Juvenile Petitions

Nebraska Revised Statute 24-1007 (a) Juveniles prosecuted in juvenile court under subdivision (1), (2), (3), or (4) of section 43-247, including the total number of filings and adjudications.

The Juvenile Petitions and Adjudications tables report the number of new juvenile cases and corresponding percent of adjudications by case type and demographic for cases filed in 2015. The data consists of both county court and separate juvenile court cases. Cases with multiple charges, pleas or findings are counted once per case. Supplemental petitions are not included in this data set. Cases filed in November or December of 2015 may not have reached the adjudication stage of proceedings.

Part (b) Juveniles Prosecuted in Adult Criminal Court - Case Type

Nebraska Revised Statute 24-1007 (b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation.

Juveniles Prosecuted in Adult Criminal Court tables consist of criminal and traffic cases in county court and criminal cases in district court that reached the point of sentencing in 2015. Cases with multiple charges are counted once per case and reported as the most severe offense. Cases for juveniles ages 13 and below must be filed and stay in juvenile court; however, judges have the authority to allow these cases in criminal court. Therefore, only juveniles ages 14 through 17 at the time of the offense appear in adult criminal court data, with rare exceptions.

Part (b) Juveniles Prosecuted in Adult Criminal Court - Sentence

Nebraska Revised Statute 24-1007 (b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation.

Juveniles Prosecuted in Adult Criminal Court tables include criminal and traffic cases in county court and criminal cases in district court that reached the point of sentencing in 2015. If multiple sentencing types occur within a case (ex. probation/jail), all sentencing types are included.

Part (c) Motions to Transfer Courts and Transfers

Nebraska Revised Statute 24-1007 (c) The number of motions to transfer and the number of cases transferred to adult court from juvenile court and from adult criminal court to juvenile court.

The data for Motions to Transfer Cases and Cases Transferred consists of county court and district court adult criminal cases and county court and separate juvenile court juvenile cases within the same county. Motions to transfer cases and cases transferred that were entered in 2015 were included in the file. Cases may have been filed previously and transferred in 2015. There can be multiple motions to transfer a case and all are reported; transfers occur once per case.

Nebraska Revised Statute 24-1007 (d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation.

Juvenile Probation Activity - Cases tables consist of juvenile probation cases in county court and separate juvenile court that had the following activities during the year: placed on probation, out-of-home placement, motions to revoke, probation revoked, or satisfactory release. Probation cases may have multiple motions to revoke probation and multiple probation revocations. Cases may have been ordered to probation in previous years. All probation types are included.

Part (d) Probation - Youth

Nebraska Revised Statute 24-1007 (d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation.

The Juvenile Probation Activity - Youth data is provided from the Office of Probation's case management system, Nebraska Probation Application for Community Safety (NPACS). The table reports the number and percent of youth with various activity during the year. Youth are counted once in each category, regardless of the number of out-of-home placements, motions to revoke, or cases they may have in the court system. Age groups report age at the time of arrest, with the exception of the average length of probation, which reports age at the time of exit from probation.

Youth Level of Service/Case Management Inventory (YLS/CMI) is an assessment tool used to determine the level of risk and appropriate placement for youth on probation. The following table shows the classification results of youth upon entry and exit from probation.

Classification based on Youth Level of Service/ Case Management Inventory Level					
District	Risk Category	Initial Classification		Final Classification	
		#	%	#	%
D8	Juvenile Community-Based Intervention (high risk)	18	35%	11	30%
	Juvenile Community-Based Resource (low risk)	34	65%	26	70%
Total Youth		52	100%	37	100%

*No YLS/CMI assessment completed prior to termination of probation due to a brief probation term or successful completion of pre-adjudicated services.

As a part of the Interstate Compact on the Placement of Children (ICPC), Nebraska monitors youth from out of state. These are notated in county tables as “out of state.”

Part (e) Juveniles With Access to Counsel

Nebraska Revised Statute 24-1007 (e) juveniles with and without access to counsel in juvenile and adult court, both appointed and retained.

The Juveniles with Access to Counsel table displays the percent of juveniles represented by an attorney in criminal cases from county court and district court and juvenile cases from county court and separate juvenile court. Data includes new cases filed and cases transferred from one county to another during calendar year 2015. Cases filed in 2015 may not have reached the sentencing/adjudication stage of proceedings.

Part (a) Adjudication of Juvenile Petitions

Nebraska Revised Statute 24-1007 (a) Juveniles prosecuted in juvenile court under subdivision (1), (2), (3), or (4) of section 43-247, including the total number of filings and adjudications.

The Juvenile Petitions and Adjudications tables report the number of new juvenile cases and corresponding percent of adjudications by case type and demographic for cases filed in 2015. The data consists of both county court and separate juvenile court cases. Cases with multiple charges, pleas or findings are counted once per case. Supplemental petitions are not included in this data set. Cases filed in November or December of 2015 may not have reached the adjudication stage of proceedings.

Part (b) Juveniles Prosecuted in Adult Criminal Court - Case Type

Nebraska Revised Statute 24-1007 (b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation.

Juveniles Prosecuted in Adult Criminal Court tables consist of criminal and traffic cases in county court and criminal cases in district court that reached the point of sentencing in 2015. Cases with multiple charges are counted once per case and reported as the most severe offense. Cases for juveniles ages 13 and below must be filed and stay in juvenile court; however, judges have the authority to allow these cases in criminal court. Therefore, only juveniles ages 14 through 17 at the time of the offense appear in adult criminal court data, with rare exceptions.

Part (c) Motions to Transfer Courts and Transfers

Nebraska Revised Statute 24-1007 (c) The number of motions to transfer and the number of cases transferred to adult court from juvenile court and from adult criminal court to juvenile court.

The data for Motions to Transfer Cases and Cases Transferred consists of county court and district court adult criminal cases and county court and separate juvenile court juvenile cases within the same county. Motions to transfer cases and cases transferred that were entered in 2015 were included in the file. Cases may have been filed previously and transferred in 2015. There can be multiple motions to transfer a case and all are reported; transfers occur once per case.

Part (d) Probation - Case Count

Nebraska Revised Statute 24-1007 (d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation.

Juvenile Probation Activity - Cases tables consist of juvenile probation cases in county court and separate juvenile court that had the following activities during the year: placed on probation, out-of-home placement, motions to revoke, probation revoked, or satisfactory release. Probation cases may have multiple motions to revoke probation and multiple probation revocations. Cases may have been ordered to probation in previous years. All probation types are included.

Part (d) Probation - Juvenile Count

Nebraska Revised Statute 24-1007 (d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation.

The Juvenile Probation Activity - Youth data is provided from the Office of Probation's case management system, Nebraska Probation Application for Community Safety (NPACS). The table reports the number and percent of youth with various activity during the year. Youth are counted once in each category, regardless of the number of out-of-home placements, motions to revoke, or cases they may have in the court system. Age groups report age at the time of arrest, with the exception of the average length of probation, which reports age at the time of exit from probation.

Youth Level of Service/Case Management Inventory (YLS/CMI) is an assessment tool used to determine the level of risk and appropriate placement for youth on probation. The following table shows the classification results of youth upon entry and exit from probation.

Classification based on Youth Level of Service/ Case Management Inventory Level					
District	Risk Category	Initial Classification		Final Classification	
		#	%	#	%
D9	Juvenile Community-Based Intervention (high risk)	126	42%	86	35%
	Juvenile Community-Based Resource (low risk)	176	58%	159	65%
Total Youth		302	100%	245	100%

*No YLS/CMI assessment completed prior to termination of probation due to a brief probation term or successful completion of pre-adjudicated services.

As a part of the Interstate Compact on the Placement of Children (ICPC), Nebraska monitors youth from out of state. These are notated in county tables as “out of state.”

Part (e) Juveniles With Access to Counsel

Nebraska Revised Statute 24-1007 (e) juveniles with and without access to counsel in juvenile and adult court, both appointed and retained.

The Juveniles with Access to Counsel table displays the percent of juveniles represented by an attorney in criminal cases from county court and district court and juvenile cases from county court and separate juvenile court. Data includes new cases filed and cases transferred from one county to another during calendar year 2015. Cases filed in 2015 may not have reached the sentencing/adjudication stage of proceedings.

Part (a) Adjudication of Juvenile Petitions

Nebraska Revised Statute 24-1007 (a) Juveniles prosecuted in juvenile court under subdivision (1), (2), (3), or (4) of section 43-247, including the total number of filings and adjudications.

The Juvenile Petitions and Adjudications tables report the number of new juvenile cases and corresponding percent of adjudications by case type and demographic for cases filed in 2015. The data consists of both county court and separate juvenile court cases. Cases with multiple charges, pleas or findings are counted once per case. Supplemental petitions are not included in this data set. Cases filed in November or December of 2015 may not have reached the adjudication stage of proceedings.

Part (b) Juveniles Prosecuted in Adult Criminal Court - Case Type

Nebraska Revised Statute 24-1007 (b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation.

Juveniles Prosecuted in Adult Criminal Court tables consist of criminal and traffic cases in county court and criminal cases in district court that reached the point of sentencing in 2015. Cases with multiple charges are counted once per case and reported as the most severe offense. Cases for juveniles ages 13 and below must be filed and stay in juvenile court; however, judges have the authority to allow these cases in criminal court. Therefore, only juveniles ages 14 through 17 at the time of the offense appear in adult criminal court data, with rare exceptions.

Part (c) Motions to Transfer Courts and Transfers

Nebraska Revised Statute 24-1007 (c) The number of motions to transfer and the number of cases transferred to adult court from juvenile court and from adult criminal court to juvenile court.

The data for Motions to Transfer Cases and Cases Transferred consists of county court and district court adult criminal cases and county court and separate juvenile court juvenile cases within the same county. Motions to transfer cases and cases transferred that were entered in 2015 were included in the file. Cases may have been filed previously and transferred in 2015. There can be multiple motions to transfer a case and all are reported; transfers occur once per case.

Part (d) Probation - Youth

Nebraska Revised Statute 24-1007 (d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation.

The Juvenile Probation Activity - Youth data is provided from the Office of Probation's case management system, Nebraska Probation Application for Community Safety (NPACS). The table reports the number and percent of youth with various activity during the year. Youth are counted once in each category, regardless of the number of out-of-home placements, motions to revoke, or cases they may have in the court system. Age groups report age at the time of arrest, with the exception of the average length of probation, which reports age at the time of exit from probation.

Part (e) Juveniles With Access to Counsel

Nebraska Revised Statute 24-1007 (e) juveniles with and without access to counsel in juvenile and adult court, both appointed and retained.

The Juveniles with Access to Counsel table displays the percent of juveniles represented by an attorney in criminal cases from county court and district court and juvenile cases from county court and separate juvenile court. Data includes new cases filed and cases transferred from one county to another during calendar year 2015. Cases filed in 2015 may not have reached the sentencing/adjudication stage of proceedings.

Part (a) Adjudication of Juvenile Petitions

Nebraska Revised Statute 24-1007 (a) Juveniles prosecuted in juvenile court under subdivision (1), (2), (3), or (4) of section 43-247, including the total number of filings and adjudications.

The Juvenile Petitions and Adjudications tables report the number of new juvenile cases and corresponding percent of adjudications by case type and demographic for cases filed in 2015. The data consists of both county court and separate juvenile court cases. Cases with multiple charges, pleas or findings are counted once per case. Supplemental petitions are not included in this data set. Cases filed in November or December of 2015 may not have reached the adjudication stage of proceedings.

Part (b) Juveniles Prosecuted in Adult Criminal Court - Case Type

Nebraska Revised Statute 24-1007 (b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation.

Juveniles Prosecuted in Adult Criminal Court tables consist of criminal and traffic cases in county court and criminal cases in district court that reached the point of sentencing in 2015. Cases with multiple charges are counted once per case and reported as the most severe offense. Cases for juveniles ages 13 and below must be filed and stay in juvenile court; however, judges have the authority to allow these cases in criminal court. Therefore, only juveniles ages 14 through 17 at the time of the offense appear in adult criminal court data, with rare exceptions.

Part (c) Motions to Transfer Courts and Transfers

Nebraska Revised Statute 24-1007 (c) The number of motions to transfer and the number of cases transferred to adult court from juvenile court and from adult criminal court to juvenile court.

The data for Motions to Transfer Cases and Cases Transferred consists of county court and district court adult criminal cases and county court and separate juvenile court juvenile cases within the same county. Motions to transfer cases and cases transferred that were entered in 2015 were included in the file. Cases may have been filed previously and transferred in 2015. There can be multiple motions to transfer a case and all are reported; transfers occur once per case.

Part (d) Probation - Youth

Nebraska Revised Statute 24-1007 (d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation.

The Juvenile Probation Activity - Youth data is provided from the Office of Probation's case management system, Nebraska Probation Application for Community Safety (NPACS). The table reports the number and percent of youth with various activity during the year. Youth are counted once in each category, regardless of the number of out-of-home placements, motions to revoke, or cases they may have in the court system. Age groups report age at the time of arrest, with the exception of the average length of probation, which reports age at the time of exit from probation.

Youth Level of Service/Case Management Inventory (YLS/CMI) is an assessment tool used to determine the level of risk and appropriate placement for youth on probation. The following table shows the classification results of youth upon entry and exit from probation.

Classification based on Youth Level of Service/ Case Management Inventory Level					
District	Risk Category	Initial Classification		Final Classification	
		#	%	#	%
D11	Juvenile Community-Based Intervention (high risk)	90	30%	98	31%
	Juvenile Community-Based Resource (low risk)	166	55%	172	55%
	Other*	48	16%	45	14%
Total Youth		304	100%	315	100%

*No YLS/CMI assessment completed prior to termination of probation due to a brief probation term or successful completion of pre-adjudicated services.

As a part of the Interstate Compact on the Placement of Children (ICPC), Nebraska monitors youth from out of state. These are notated in county tables as “out of state.”

Part (e) Juveniles With Access to Counsel

Nebraska Revised Statute 24-1007 (e) juveniles with and without access to counsel in juvenile and adult court, both appointed and retained.

The Juveniles with Access to Counsel table displays the percent of juveniles represented by an attorney in criminal cases from county court and district court and juvenile cases from county court and separate juvenile court. Data includes new cases filed and cases transferred from one county to another during calendar year 2015. Cases filed in 2015 may not have reached the sentencing/adjudication stage of proceedings.

Part (a) Adjudication of Juvenile Petitions - District 12

Nebraska Revised Statute 24-1007 (a) Juveniles prosecuted in juvenile court under subdivision (1), (2), (3), or (4) of section 43-247, including the total number of filings and adjudications.

The Juvenile Petitions and Adjudications tables report the number of new juvenile cases and corresponding percent of adjudications by case type and demographic for cases filed in 2015. The data consists of both county court and separate juvenile court cases. Cases with multiple charges, pleas or findings are counted once per case. Supplemental petitions are not included in this data set. Cases filed in November or December of 2015 may not have reached the adjudication stage of proceedings.

Part (b) Juveniles Prosecuted in Adult Criminal Court - Case Type

Nebraska Revised Statute 24-1007 (b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation.

Juveniles Prosecuted in Adult Criminal Court tables consist of criminal and traffic cases in county court and criminal cases in district court that reached the point of sentencing in 2015. Cases with multiple charges are counted once per case and reported as the most severe offense. Cases for juveniles ages 13 and below must be filed and stay in juvenile court; however, judges have the authority to allow these cases in criminal court. Therefore, only juveniles ages 14 through 17 at the time of the offense appear in adult criminal court data, with rare exceptions.

Part (c) Motions to Transfer Courts and Transfers

Nebraska Revised Statute 24-1007 (c) The number of motions to transfer and the number of cases transferred to adult court from juvenile court and from adult criminal court to juvenile court.

The data for Motions to Transfer Cases and Cases Transferred consists of county court and district court adult criminal cases and county court and separate juvenile court juvenile cases within the same county. Motions to transfer cases and cases transferred that were entered in 2015 were included in the file. Cases may have been filed previously and transferred in 2015. There can be multiple motions to transfer a case and all are reported; transfers occur once per case.

Part (d) Probation - Cases

Nebraska Revised Statute 24-1007 (d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation.

Juvenile Probation Activity - Cases tables consist of juvenile probation cases in county court and separate juvenile court that had the following activities during the year: placed on probation, out-of-home placement, motions to revoke, probation revoked, or satisfactory release. Probation cases may have multiple motions to revoke probation and multiple probation revocations. Cases may have been ordered to probation in previous years. All probation types are included.

Part (d) Probation - Youth

Nebraska Revised Statute 24-1007 (d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation.

The Juvenile Probation Activity - Youth data is provided from the Office of Probation's case management system, Nebraska Probation Application for Community Safety (NPACS). The table reports the number and percent of youth with various activity during the year. Youth are counted once in each category, regardless of the number of out-of-home placements, motions to revoke, or cases they may have in the court system. Age groups report age at the time of arrest, with the exception of the average length of probation, which reports age at the time of exit from probation.

Youth Level of Service/Case Management Inventory (YLS/CMI) is an assessment tool used to determine the level of risk and appropriate placement for youth on probation. The following table shows the classification results of youth upon entry and exit from probation.

Classification based on Youth Level of Service/ Case Management Inventory Level					
District	Risk Category	Initial Classification		Final Classification	
		#	%	#	%
D12	Juvenile Community-Based Intervention (high risk)	55	28%	53	36%
	Juvenile Community-Based Resource (low risk)	138	69%	88	59%
	Other*	7	4%	7	5%
Total Youth		200	100%	148	100%

*No YLS/CMI assessment completed prior to termination of probation due to a brief probation term or successful completion of pre-adjudicated services.

As a part of the Interstate Compact on the Placement of Children (ICPC), Nebraska monitors youth from out of state. These are notated in county tables as “out of state.”

Part (e) Juveniles With Access to Counsel

Nebraska Revised Statute 24-1007 (e) juveniles with and without access to counsel in juvenile and adult court, both appointed and retained.

The Juveniles with Access to Counsel table displays the percent of juveniles represented by an attorney in criminal cases from county court and district court and juvenile cases from county court and separate juvenile court. Data includes new cases filed and cases transferred from one county to another during calendar year 2015. Cases filed in 2015 may not have reached the sentencing/adjudication stage of proceedings.

Nebraska Revised Statute 24-1007

Revised Statutes » Chapter 24 » 24-1007

24-1007. State Court Administrator; compile judicial workload statistics; how; juveniles in Nebraska's justice system; annual report; contents.

(1) The State Court Administrator shall compile uniform and accurate statistics which will assist in the evaluation of judicial workloads. The judicial workload statistics shall be based on caseload numbers weighted by category of case. The judicial workload statistics shall be compiled annually for each district, county, and separate juvenile court judicial district in the state.

(2) The State Court Administrator shall develop and provide an annual report to the Legislature and the Governor on juveniles in Nebraska's justice system. The report to the Legislature shall be provided electronically. For purposes of this section, juvenile has the same meaning as in section 43-245. The report shall include, but not be limited to, geographic and demographic information on the following:

(a) Juveniles prosecuted in juvenile court under subdivision (1), (2), (3)(b), or (4) of section 43-247, including the total number of filings and adjudications;

(b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation;

(c) The number of motions to transfer and the number of cases transferred to adult court from juvenile court and from adult criminal court to juvenile court;

(d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation;

(e) Juveniles with and without access to counsel in juvenile and adult court, both appointed and retained; and

(f) Rates of recidivism.
